Bb F C C x2

Bb F C C

Long distance, Telephone call
Early here but always late for you
How are you mom?
You will?
That sounds like fun
Waiting in the cold, for you
Where did you go, were you lost
You screamed, Did you bring the whole army?
You said I'll kill you before we get home

CHORUS

Bbsus2 Fadd2 C* C*

You took the bridge to Japan last night
While I was gone
And that's how we were when we were young
And that's how we were when we were young
And that's how we were when we were young

Bbsus2 Fadd2 C* C*

Bb F C C

Sliding glass doors, let us through
Looks like home, but only sterile and cold
Which door? They look all the same
Waiting is painfully silent, "please tell us a joke"
Ha ha ha ha ...
Lining your pockets, with tissue
The doctor did not know what to do
2000 and something I, I don't I don't
What were their names? I don't recall

CHORUS

Bbsus2 Fadd2 C* C*

You flew to the moon last night
While I was gone
And that's how we were when we were young
And that's how we were when we were young
And that's how we were when we were young

When we were young
Gone...

INSTRUMENTAL

Bb F C C x8

You took the bridge to Japan last night
while I was gone

It's not so bad
